Education

East Stroudsburg University — East Stroudsburg, PA
Bachelor of Science in Computer Science, Minor in Mathematics — *Aug. 2022 – May 2026*

Technical Skills

Languages: C#, Python, Java, JavaScript, SQL, C++, HTML/CSS
Frameworks: ASP.NET Core MVC, Entity Framework Core, React, FastAPI, Flask, Node.js
Databases & Cloud: PostgreSQL, SQL Server, ChromaDB, Microsoft Azure, Azure Blob Storage, Neon
Tools & Technologies: REST APIs, Git, GitHub, Docker, Render, Vercel, SQLAlchemy, OpenAI API, RAG, Ollama, LangChain

Experience

Pfizer Advanced (via Extern) — Remote
AI-Powered Document Insights & Data Extraction Extern — *June 2026 – Aug. 2026*

- Reduced manual document review effort by 45% by building multi-modal OCR and RAG pipelines to automate entity extraction across 500+ unstructured corporate documents.
- Accelerated data accessibility by fine-tuning LLM parsing techniques to convert complex text into structured JSON schemas for automated retrieval.

East Stroudsburg University — East Stroudsburg, PA
Full Stack Developer Intern — *Jan. 2026 – May 2026*

- Engineered a full-stack web app with C# and ASP.NET Core MVC, expanding platform content capacity to over 50 published posts.
- Improved relational query speed by 25% by designing a normalized SQL Server database using EF Core migrations and optimized index patterns.
- Scaled media infrastructure by integrating Azure Blob Storage to process and serve 100+ user image uploads with zero downtime.

East Stroudsburg University — Remote
Student Researcher, Virtual Reality Classroom Platform — *May 2024 – Aug. 2024*

- Increased student participation by 30% over conventional online instruction by developing real-time interactable C# scripts for VR whiteboards.

Projects

LLM Observatory | *FastAPI, React, PostgreSQL, OpenAI API, SQLAlchemy, Render, Vercel, Neon* — 2026

- Decreased prompt debugging time by 60% by engineering a full-stack telemetry platform in FastAPI/React to track latency, token usage, and cost analytics.
- Improved output accuracy by 35% by constructing an automated LLM-as-judge evaluation pipeline to score output quality on live API calls.
- Optimized analytics retrieval by designing a PostgreSQL schema with SQLAlchemy to index telemetry and aggregate cost trends.

Local RAG Pipeline | *Python, FastAPI, LangChain, ChromaDB, Ollama, Docker* — 2026

- Eliminated third-party API costs and ensured 100% privacy compliance by architecting a local RAG pipeline using open-source LLMs via Ollama.
- Accelerated document retrieval speed by 40% by implementing chunking strategies and persistent vector indexing with ChromaDB.
- Streamlined workflow integration by building a high-throughput FastAPI REST API to serve asynchronous document ingestion and context queries.

Leadership & Involvement

East Stroudsburg University — East Stroudsburg, PA
Resident Advisor, S.T.E.M. Living-Learning Community — *Jan. 2024 – May 2026*

- Managed logistics, policy enforcement, and community programming for a 45-student STEM floor by orchestrating communications, event logistics, and process documentation.
